Lived 152 Years.

Wm. Parr—England's oldest man—married the third time at 120, worked in the fields till 132 and lived 20 years longer. People should be youthful at 80. James Wright, of Spurlock, Ky., shows how to remain young. "I feel just like a 16-year-old boy," he writes "after taking six bottles of Electric Bitters. For 30 years kidney trouble made life a burden, but the first bottle of this wonderful medicine convinced me I had found the greatest cure on earth." They're a godsend to weak, sickly run down or old people. Try them, 50c at Penny's Drug Store.

Bobbitt on the Pardoning Power.

I have been requested by both democrats and republicans, and one of them the most intelligent colored man in Kentucky, to give my views upon the question: "Can a Governor of a State Pardon a Fugitive From Justice?" Emphatically, no. When one flees from justice and withdraws himself from the jurisdiction of a State and its courts and refuses to render himself amenable to the process of the laws, and exiles himself from the laws of his State and withdraws himself from the reach of the sword of justice, he has no right to, and can not claim the interposition of executive clemency from the governor of that State whose laws he has broken, and from whose penalties he has fled. God in His mercy will impart grace and pardon to the humble penitent who approaches the throne of Grace with a contrite and broken heart. But God Almighty will not forgive the stubborn heart. The wicked sinner may flee from the wrath of God and place himself out of the pale of mercy, but he can not withdraw himself from the punishment of violated law.

Our fathers in framing the organic law of this country, incorporated in the constitution of the United States this section: "Fugitives from justice fleeing from one State to another shall be delivered up by the executive of the State to which he has fled, on demand of the executive authority of the State from which he fled, to be removed to the State having jurisdiction of the crime." This clause was inserted in the constitution by our fore-fathers to prevent a defeat of the demands of justice. Nor can the governor of the State to which the criminal has fled for refuge, refuse or fail to surrender the fugitive on any account without a violation of the oath of office, which he takes at his inauguration, to support the constitution of the United States. There is no plainer section in the constitution than this. If any section of the constitution can be picked to pieces then the whole four months' work of the wisest and best men on earth may be picked to pieces as so much oakum.

Why was the pardoning power vested in our constitution? To relieve against hardship. There is perhaps one man out of 500 unjustly and improperly convicted. There are some cases—I know of one or two out of 1,300 now in the penitentiary, that are entitled to immediate liberty. But they will not be pardoned. 'Tis the worst criminals who are pardoned. Almost everybody knows this. A good man, as Blackstone says about a moderate man in politics, receives no quarter from any party. The object of the law is to punish bad men; to prevent crimes. The abuse of executive clemency is a great encouragement to crime. Some men only kill to get a bad, bloody name. The preamble of the constitution reads as follows: "We, the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare and to secure the blessings of liberty to ourselves and our posterity, do ordain and establish this constitution for the United States of America." The abuse or indiscriminate use of the pardoning power does none of this. Blackstone says the English register does not disclose a single case where any king of Great Britain has ever pardoned an assassin. You may ask what shall the people do who are taxed to death to punish bad men and that object is defeated by a usurping executive? Answer: Ignore his pardons and arrest, try and punish the criminals and enforce your laws. Away back in the old Bible times, if a man accidentally killed his neighbor, with whom he was working, he had to flee to a city of refuge to escape the avenger of blood and even then must not come out till the death of the high priest. Six of our executive magistrates ought to have been impeached and one nearly at the bottom of the alphabet ought to be impeached by the next General Assembly. None of this will be done, however.

This communication is in answer to a request made of me by members of both parties and both races.

It will sound strange to future generations that 1,200 men can go with arms at noon day and assassinate a State Senator and no one be hung for it, and two other men in a neighboring State can murder a United States Senator and after conviction give bond and one of them sail away to Cuba.

Judge M. C. Sautley defeated his opponent, Judge J. S. Owsley, in the race Saturday for the democratic nomination for circuit judge in the 13th judicial district by a majority of 1,196. The first vote the writer ever cast in a circuit judge's race was for Judge Sautley, and he believes to-day, as he believed then, that there is not a better qualified and equipped man, nor one who will make a better circuit judge than will Judge Sautley.—Somerset Journal.

The Interior Journal.

E. C. WALTON

A DECISIVE VICTORY.

THE INTERIOR JOURNAL took no hand in the contest for the circuit judgeship just closed, regarding it as no part of the duty of a party paper to take sides in a contest between democrats. Both candidates are our personal friends and we did not want to place ourselves in a position where we could not support either in the final race for the office, without a charge of insincerity. Of the nominee, Judge Micah Chrisman Sauley, we have always entertained the highest admiration as a lawyer, as a man and a democrat, and it will be no less a duty than a pleasure to do all in our power to secure his election. As a jurist he has been tried and found not wanting in the slightest particular, and when he again assumes the ermine, as he is sure to do, it will be with mature judgment and a fuller appreciation of right and justice. The party and the district are to be congratulated on securing the services of a man so competent for the fullest discharge of the responsible office which he will fill. Of Judge Sauley it may truthfully be said that he was as brave and true in war as he has been useful and deserving in peace. He has filled many stations in life, always with credit, and his friends rejoice that he will be able to round out a long and honorable career in a position that his talents, his accomplishments and his fitness so eminently qualify him. That he is so largely the choice of the people of the district must be a matter of great pride to him as it is an omen of certain victory for the party. Let us all now forget the asperities of the contest, let by-gones be by-gones and each democrat of us constitute himself into a committee of one to make Judge Sauley's majority in the final contest as great as it was in the preliminary skirmish.

Few are aware of the magnitude of the beet sugar industry. Last year the farmers raised nearly five million tons, for which they received about twenty-two million dollars, or \$5.35 a ton. In 12 years \$121,000,000 have been paid by the factories for beets. There are 64 beet sugar factories in the country with a capacity of 50,000 tons of beets per day and they cost over \$70,000,000. Factories are successfully operated in 16 States. Last year the production was nearly 200,000 tons of beet sugar. It is not regarded to be as good as cane sugar but it serves every practical purpose and helps to provide for the ever increasing sugar consumption.

SENATOR PAYNTER'S speech urging the repeal of the six cents tax on tobacco was a very strong one, but we are afraid it fell on unwilling ears. The republican majority will hardly permit this much deserved relief, especially since it would principally help the Southern raisers. However, if Senator Paynter should succeed in his efforts for the farmers, it will be a famous victory and entitle him to the plaudits of every man who raises the weed.

EDITOR ROOSEVELT says in the Outlook that Count Tolstoi is a "moral pervert" and that his works have a tendency for evil. When it is remembered that the count wrote a letter commending Bryan for the presidency, the milk in the cocoanut can be accounted for.

INSTEAD of going West, young man, go to Washington. It may not be as easy to carve out a fortune there but it will be easier to get a wife, if we are to judge by the large surplus of women. The latest census shows that the women outnumber the men 15,425.

A MONUMENT to Commander Wirz has just been unveiled at Andersonville, S. C., near the site of the famous war prison, erected through the efforts of the Daughters of the Confederacy, and some of the Northern papers are howling like sheep killing hounds. The horrible conditions existing at the prison in which 13,000 Yankee prisoners died and many others were incapacitated for life, have long since been shown to have been beyond the power of Capt. Wirz to prevent and that his execution by order of a drum head court martial was as much a murder as the hanging of Mrs. Surratt for alleged complicity in the assassination of Lincoln. Capt. Wirz was the victim of circumstances and not the fiendish brute that he has been pictured. The whole South was bordering on starvation when Andersonville furnished its horrors, for which the captain was held responsible. The long delayed tribute to him and testimonial of his integrity are gratifying to every one who realizes that he was sacrificed to appease a desire for revenge that nearly 44 years after his execution finds lodgment in the breasts of very few of those who knew that he did the best he could have done under the circumstances.

MEMPHIS is preparing to make the Confederate reunion, to be held there June 8-10, the greatest of all the series. The dwindling number of the gallant hosts that went to battle for home and rights, the destruction of which they thought was threatened, indicate that but few more of these reunions will be held. Most of the survivors are either past or nearing the allotted span of life and before many years all who fought for the Lost Cause will have crossed over the river to rest with Jackson under the shade of the trees. The larger number of them were great in war and useful in peace and their going will create a void which will be hard to fill. May they be reunited in the land where war and its hardships are never known.

MAYOR GRINSTEAD had no trouble in securing the republican nomination for mayor of Louisville, but just wait and see what the democrats will do for him in November.

POLITICAL.

The Negro disfranchisement bill on Wednesday received its final defeat in the Florida House.

Senator Bradley introduced an amendment to the tariff bill, which he believes will give relief to the tobacco growers. The local option bill giving cities and villages the right to vote on the saloon question regardless of the township vote was passed by the Illinois House. The News-Democrat of Paducah strongly mentioned Charles K. Wheeler, of that city, as a probable candidate for the Democratic nomination for Governor.

The statements recently made by Senator Hale and others of the Aldrich clique that jobbers and retailers were responsible for the high prices and not the manufacturers, was responsible for the introduction of a resolution by Senator Gore demanding an investigation to determine where the fault lies. After a lively debate, Senator Hale, by a point of order, delayed a vote on the resolution.

This magnificent bred young stallion will make the season of 1909 at my stable at Stanford, Ky., at \$15 to insure a living colt.

Don Varrick is 16-2, a beautiful chestnut, short back, heavy bone; in fact the highest type of the trotter. He is by the great Onward Silver 2:05 1/4, that won the \$5,000 Transylvania in a seven heat race in 1902 and the same year won the \$10,000 Bonner Memorial and the M. & M. in broken heats and sold for \$21,000 and later sold for \$25,000. Don Varrick is bred exactly like Spanish Queen that won the \$5,000 Transylvania in 1908, making a record of 2:07 and was classed as one of the big four, being one of the greatest money winners on the grand circuit last year. Onward Silver is by Onward, one of the greatest and best sons of George Wilkes. Onward's dam was the dam of Director, the sire of that great family of trotters and pacers. Don Varrick's 1st dam was by Wilkes Boy, by George Wilkes, a full sister to The Wag 2:15 1/4, and a half sister to Madeline Patchen, the dam of Rubber 2:10, Winchester 2:19 1/4, Billy Wagon 2:20, and Miss R 2:20; 2nd dam Mary, by Roger's Grey Eagle, the dam of The Wag 2:15 1/4; Madeline Patchen, the dam of Rubber 2:10, Winchester 2:19 1/4, Billy Wilton 2:20, and Miss R 2:20. Conner that paced a public half mile on the Lexington track at 16 months in 1904, and sold to N. W. Hubinger, of New Haven, Conn., for \$1,000, who produced Maggie Igo that trotted a half mile on the same track at 16 months in 1:11 and sold for \$500.

Please note the rich inheritance of speed on both sides—not a missing link for generations. Bred to this fellow and you can't miss the three things every breeder looks for—size, speed and looks. See him before booking your mares. Season money due when mares are parted with or bred to another horse. Mares kept at 10 cents per day and all care taken but will not be responsible for accidents or escapes.

The deep anxiety for the welfare of the general public shown by the Aldrich gang in framing the tariff bill calls to mind the solicitude for the comforts of the poor manifested at a rich man's banquet. Everyone had fared sumptuously, and all were happy. Finally some one mentioned that in their round of pleasure they had overlooked the poor. The oversight was immediately corrected by a philanthropic brother proposing "three cheers for the poor."

SAMPSON
Will make the 1909 season at my farm where I live, 1/2 mile South of Stanford on the Somerset pike as \$10 to insure a living colt. This young jack's colts won more in premiums in 1908 and 1909 than any jack in the county. His two first colts have never been beaten in their class as colts and yearlings and look like winners for 1909. They were shown at all local fairs both years. And at Lexington and Kentucky State Fair in 1908. His 1908 colt was 1st winner at Kentucky State Fair and at several local fairs. Some of his 1907, 1908 and 1909 colts are on my farm to show for themselves.
